

The Most Reliable 3.5G GPS Devices Available

- No Activation - Monthly or Annual Fees Ever!
- Air Time Included for the Life of the Device
- Lowest Cost of Ownership

DEVICE FEATURES

NO ANNUAL FEES

Each device includes unlimited wireless service & 100 credits (50 tracks pooled).

AUTO DAILY LOCATE

Automatically locates the vehicle every 25 hours creating a detailed historical trail.

LOW POWER DRAW

Less than 4 milliamp current draw when the vehicle is not in motion.

EASY INSTALLATION

Installs within minutes with our quick LED diagnostic indicators on the device.

NORTH AMERICAN COVERAGE

Largest coverage area - On every GSM cell tower in the USA, Canada, Mexico & Puerto Rico. Over 15 networks in the USA.

SILICON SIM CHIP

An industry first! our embedded silicon microchip prevents the device from failure due to extreme hot & cold temperatures.

PERIMETER BASED ALERTS (GEOFENCES)

Alerts when a vehicle enters or leaves a user-designated zone. Zones are precisely drawn using a 12 point drawing tool and can be layered with up to 10 keep-in or keep-out zones for sophisticated configurations. Zones can be as simple as a small garage or impound lot or as big as an entire country.

SEE ALL YOUR VEHICLES ON ONE MAP

Our easy to use map view allows you to see where all your vehicles were their last reported position - on a single map.

PAYMENT REMINDER & WARNING

In the event of non-payment, you can activate a pre-warning signal each time the vehicle is started. On demand or on a pre-set schedule.

DISABLE

If payment is not received within a specified timeframe, the vehicle's starter can be remotely disabled via add-on starter interrupt. On-demand or on a pre-set schedule.

REACTIVATE

Upon receipt of payment, you can quickly and easily re-activate the vehicle's starter.

EMERGENCY OVERRIDE

Ensures that you can reactivate the vehicle when it's outside of coverage to help protect you from liability issues.

SCHEDULE ANY FUNCTION

To automatically locate, warn, or disable the vehicle on preset dates & times.
